

YOUTH PROGRAMS & ANAPHYLAXIS AND EPINEPHRINE AUTO-INJECTORS

Training Information

1. If there is a child attending a youth program who carries an anaphylaxis and epinephrine auto-injector, there must be a trained program staff in the immediate vicinity of the camper at all times (an area in which an individual is physically present with a child and can see, hear, direct and assess the activities of the child).
2. This training is specifically designed for the EpiPen Anaphylaxis and Epinephrine Auto-Injector. It does not provide details for a generic or the Auvi-Q Anaphylaxis and Epinephrine Auto-Injector. If a child is using a generic or the Auvi-Q brand, further instruction will need to be provided by the parent/guardian along with further review of the product's patient information/instruction information.

Generic:

Auvi-Q:

<https://www.auvi-q.com/patient-information/>

3. Penn State should reimburse program staff for training cost/time. The cost of this course is \$30.00 per person.
4. If appropriate, work together with the child's parent/guardian to obtain a specific [emergency care plan](#).
5. Further suggestions for managing food allergies at camp can be found here: <http://www.acacamps.org/resource-library/public-policy/epinephrine-auto-injectors-accessibility-laws-camps>
6. If there is a situation in which an anaphylaxis and epinephrine auto-injector is used at camp, please complete the [PSU Risk Management Incident Form](#) and submit as directed.
7. Include this information in your programs emergency management plan.
8. If you have any questions, contact Youth Programs Compliance.

Phone Number: (814) 865- 8785
